Breakdown

The Xeloos wordmark is a custom typographic identity built to represent xeloos making it stand out as a one of one wordmark.

The e and l connection where the two letters loop and interweave – is the conceptual heart of the wordmark. This interlocking detail represents the Xeloos community. People connected to people. Nigerians linked to the world. A network that grows because it is built on genuine relationship, not just transaction.

The script construction carries the warmth of Nigerian culture handcrafted, personal, and human while the confidence of the letterforms communicates the professionalism and authority of a premium technology brand. It does not look like a Western tech company. It looks like something built here, for here, with the intention of taking everything that was built here to the world.

Overall the Xeloos wordmark communicates access, connection, and cultural pride a brand that is warm enough to trust, bold enough to remember, and precise enough to mean exactly what it says.

A red tote bag is hanging from a metal fence. The bag features the text "Break Digital Barriers." in white, sans-serif font. In the bottom right corner of the bag, the "Xeloos" logo is printed in white. The background consists of a metal fence with a diamond-shaped mesh pattern. The lighting is dramatic, with strong highlights and deep shadows.

Physical foreign SIM cards from 12+ countries, US, UK, Canada, Australia, South Africa, Germany, Netherlands, Hong Kong, and more

A large, dark grey rectangular sign is mounted on a light-colored brick building. The sign features the word "Xeloos" in a large, red, stylized script font. Below it, the tagline "Break Digital Barriers" is written in a smaller, white, sans-serif font. The building has large windows reflecting the sky and trees.

Break Digital Barriers

A square, red sign is mounted on a modern building with a light-colored, metallic-looking facade. The sign features the word "Xeloos" in a white, stylized script font. Below it, the tagline "Break Digital Barriers" is written in a smaller, white, sans-serif font. The building has a wooden slat detail above the sign.
